

Besart Ramadani

FULL-STACK WEB DEVELOPER

Skopje 1000
+389 70 424 069
besartr1995@gmail.com

PROFESSIONAL SUMMARY

React & Next.js developer with production experience building responsive, pixel-perfect interfaces directly from Figma and Adobe XD. Author of a live commercial product (makceni.mk). Available for full-time, part-time, and freelance — remote preferred.

WORK HISTORY

Sim Sector Studios - Frontend Developer

04/2025 - Current

- Engineered responsive UI components in React & Next.js, translating Figma and Adobe XD designs into pixel-perfect, production-ready code.
- Directed front-end development for client projects, managing component architecture, API integration, and deployment.
- Delivered complete, accessible interfaces with a mobile-first approach and clean component architecture using Tailwind CSS.
- Collaborated closely with designers and back-end engineers in a fast-paced agile workflow.

PROJECTS

Full-Stack E-Commerce Platform

- Complete e-commerce solution built with Next.js (frontend) and NestJS (backend).
- Frontend: product catalog with 88+ products, category filters, multilingual support (EN/DE), responsive design, product detail pages with image gallery.
- Backend: REST API with NestJS, PostgreSQL database via Supabase, Prisma ORM, JWT authentication with bcryptjs password hashing.
- Features: shopping cart, checkout with shipping information, order management system, order history for users.
- Admin panel: real-time dashboard with stats, order status management (pending/processing/shipped/delivered), product and user management.
- Cloud deployment: frontend on Vercel, backend on Railway, database and image storage on Supabase.

Makceni.mk

- Fuel price tracker and SafeCity radar map for drivers in North Macedonia, built with Next.js. Live at www.makceni.mk — fully responsive UI with dynamic listings and optimised performance for real users.
- Auth system — built with React & Next.js, available on GitHub.
- Marketplace UI clone — built with React & Tailwind CSS, available on GitHub.
- Landing pages — built with React, Next.js, and Tailwind CSS, available on GitHub (github.com/besartt).

LANGUAGES

- Albanian: Native / Bilingual
- Macedonian: Native / Bilingual
- English: Full Professional Proficiency
